Fabriano, 14 May 2009 – The interim report for the first quarter of 2009, approved by the Board of Directors, was filed and made available to whomever making such request at the registered offices of the company at Fabriano (AN), Via Dante No. 288 and at Borsa Italiana S.p.A, and is available on the internet site www.elicagroup.com.

The **Elica Group** has been present in the cooker hood market since the 1970s and is today world leader in terms of units sold. It is also a European leader in the design, manufacture and sale of motors for central heating boilers for domestic use. With 2,400 employees and an annual output of approx. 20 million units of kitchen hoods and motors, the Elica Group has 9 plants - of these, six are in Italy, one is in Poland, one in Mexico and one in Germany.

With over thirty years' experience in the sector, Elica has combined meticulous care in design, judicious choice of material and cutting edge technology to become the prominent market figure it is today. The company has revolutionized the traditional image of the kitchen cooker hood: it is no longer seen as a simple accessory but as a design object.
